

# Galentine's Brunch Inspiration

Observing Galentines has gained popularity in the past years after being featured on *Parks and Recreation* as a holiday and I am totally here for it! Celebrating Valentine's Day with your partner is great, but why not celebrate your friendships as well? Throw a brunch with your closest Galentine's during the month of February and start a yearly tradition! Add a fun playlist, a charcuterie board, and themed props for a photobooth to make memories you'll love to look back on! I'm sharing a few other fun details you could add for a Galentine's celebration you and your girls won't soon forget.

I've used this balloon kit the past two years for photos. It's very easy to put together and looks adorable! It would be perfect on a bar cart for decoration. It would also look cute as a backdrop for a photobooth! Be sure to grab the hand pump Target also has for easy and quick inflation.

The perfect cup for your mimosa or whatever your drink of choice may be! Add a fun heart shaped straw or drink stirrer to add to the theme. These would be a perfect take home party favor!

Make regular waffles super fun with this mini heart shaped waffle maker! You can also use canned cinnamon rolls in these to make a waffle. Then drizzle the melted icing on top for a delicious brunch treat! Google a how-to video if you haven't done it before. It's such a great hack!

Pink is the official color of Galentine's Day which means you need a pink drink! This bubbly rosé is very affordable and tastes great. Grab a bottle or two for you and your gals to enjoy!

Don't feel like getting fancy for brunch?

Make it a pajama party! These are currently on my own personal wish list. Lake has the best quality pajamas that are made of the softest pima cotton. I love this heart print because while it's perfect for Valentine's/Galentine's it could also be worn year-round. This print also comes in a night shirt and long sleeve set option.
