

STEP ONE
Drape the ribbon on the front of the box down the middle, ensuring that one end of the ribbon is slightly shorter than the other.

STEP TWO
While keeping your thumb on the ribbon, wrap the long side completely around the box bringing it to the front side of the box.

STEP THREE
Cross the two pieces in the front of the box.

STEP FOUR
While holding the short end tight, bring the long end across the center of the box.

STEP FIVE
Tuck the long end under the crossed ribbon and create a bunny ear.

STEP SIX
Use the excess ribbon from the shorter end to shape another bunny ear.

STEP SEVEN
Tie the bunny ears in a knot and pull tight.

STEP EIGHT
Fluff up the bow and cut the ends at an angle.

STEP NINE
Now, you have an easy, perfect bow.
